COMMUNICATIONS

The following communication was received and read, and on motion of Senator Judah, ordered printed in the Journal:

April 11, 1951

Mr. James S. Dean
Director of Finance
1020 N Street, Sacramento, California

DEAR MR. DEAN: During the progress of the argument on the Senate floor on third reading of Senate Bill 112 yesterday afternoon, a letter arrived signed by yourself, addressed to Finance Chairman Senator Hulse, announcing that the cost of administration of this bill would be $300,000. There was no comment in your letter on the breakdown which would make up this amount of money which of course left me entirely up in the air from the standpoint of argument. Inasmuch as this bill was first filed in January at our opening session and in view of the fact that it has been before the Transportation Committee, voted out with only two no votes and sent to the floor, it seems incredible that your office, out of ordinary justice to the author of the bill, would not have long ago made an analysis as to administrative costs in order to indicate at least that the bill should go to Finance before going to the floor.

What happened yesterday amounts to simply this, whether carelessly or inadvertently done, the reading of the letter in the middle of a third reading debate was tantamount to one more argument against my bill. We had not even reached rebuttal of opposition arguments. Senator Hulse has asked the Legislative Auditor for a complete report on administrative costs under Senate Bill 112 and I intend when the bill is up before Finance, to demand a completely demonstrated argument by the Department of Motor Vehicles as to the why and wherefor of additional expenses in the administration of this act.

I believe that the arrival of a letter on the floor of the Senate during the debate on an important measure which up to the time of the calling of the bill on the file had not been subjected to scrutiny by the Legislative Auditor is historic in this Legislature and I personally protest the entire action as emanating from your office.

Very truly yours,

H. R. JUDAH

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 28:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 2, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Assembly Bill No. 28, "An act making an appropriation from the Emergency Fund specified in Item 277 of the Budget Act of 1950, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This act makes an appropriation for the repair of public improvements damaged or destroyed by recent floods in Mono and Mariposa Counties. The restoration made possible by this bill should be begun as early as possible.

I therefore recommend consideration of Assembly Bill No. 28 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

Senate Resolution No. 114

Relative to the use of Chinese Nationalist troops in combat against Chinese Communists

WHEREAS, During the past few days California's National Guard, 40th Division, arrived in Japan; and

WHEREAS, President Harry S Truman has seen fit to strip General of the Army Douglas MacArthur of all authority as Commander of United Nations Forces in Korea, Commander of U. S. Military Forces, Far East Theatre, for alleged noncooperation; and

WHEREAS, General MacArthur has advocated the use of Chinese Nationalists military troops in combat against Chinese Communist military forces; and

WHEREAS, Such dismissal indicates an opinion of the President of the United States to refuse to allow Chinese Nationalists troops to aid and assist United States military forces presently engaged in combat against Communists military units in Korea; and

WHEREAS, The Senate of the State of California recognizes that the military action in Korea is but a battle in the war against communism; and

WHEREAS, The Chinese Nationalists army leaders have indicated their desire to aid and assist United States forces in engaging in combat for the purposes of defeating and destroying the Chinese Communist military forces; and

WHEREAS, All governments of nations desirous of joining in a crusade to destroy communistic aggressors should be encouraged and utilized to the end that the majority of lives sacrificed in the present conflict against the Chinese Communist troops should not be drawn in vast measure from American military personnel, and in particular the anticipated use of the California 40th National Guard Division; therefore,

The Senate of the State of California respectfully and humbly memorializes the President of the United States to utilize his full authority and influence to permit the use of Chinese Nationalists military forces in the common cause of destroying Chinese Communists aggression in Asia, and that such utilization of Chinese Nationalists troops be invoked prior to, or in conjunction with, utilization of California 40th National Guard Division in combat.

Resolution read, and referred to Committee on Rules.

President Pro Tempore of the Senate Presiding

At 4.15 p.m., Hon. Harold J. Powers, President pro Tempore of the Senate, presiding.

Bill read second time.

Motion to Amend

Senator Weybret moved the adoption of the following amendments:

Amendment No. 1

In line 1 of the title of the printed bill, strike out "812.4, 812.6, 814," and insert "811, 812.4, 812.6, 814, 828.55,".

Amendment No. 2

In line 3 of the title of said bill, strike out "for lettuce and carrots", and insert "for lettuce, carrots and cantaloupes, declaring the urgency of this act, to take effect immediately".

PRINTER'S NOTE: There being no 7-point strikeout type available, the material which should appear in strikeout type in the following amendment is indicated by being enclosed within brackets.

Amendment No. 3

On page 3 of the printed bill, after line 18, insert

"SEC. 8. Section 811 of said code is amended to read:

811. Cantaloupes shall be mature but not over-ripe, not poorly netted, and free from mold, decay, and insect injury which has penetrated or damaged the edible portion of the cantaloupe; and free from serious damage, due to bruises, sunburn, growth cracks, cuts, sponginess, flabbiness, wilting, or other causes. Damage to any one cantaloupe is not serious unless it affects the edible portion of the individual cantaloupe.

Not more than 10 percent, by count, of the cantaloupes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one case.

Cantaloupes when packed shall be virtually uniform in size and there shall be the same numerical count of uniformly sized cantaloupes in each layer throughout the container.

"Mature" in the case of cantaloupes means that the appearance of the outside indicates maturity and the arils which surround the seed during the development of maturity have been absorbed and, in addition, that the juice of the edible portion shall contain not less than 8 percent soluble solids as determined by the Balling or Brix scale hydrometer. In view of differences in climatic and other natural conditions prevailing south and east of San Gorgonio Pass, which result in the cantaloupes grown in that area having, at maturity, a higher percentage of soluble solids than the mature cantaloupes grown in the area north and west of San Gorgonio Pass, mature in the case of cantaloupes produced in the area south and east of San Gorgonio Pass, means, in addition to the maturity requirements herein specified, that the juice of the edible portion shall contain not less than 10 percent soluble solids, as determined by the Balling or Brix scale hydrometer or that the cantaloupes have been separated from the vine by a "full slip" which indicates full maturity on the vine.

All closed containers of packed cantaloupes shall bear upon them in plain sight and in plain letters on one outside end, the name of the person who first packed or authorized the packing of the cantaloupes, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer. All containers of cantaloupes in which the pack does not conform to the standard pack provisions for cantaloupes in Section [829] *829.3* shall be conspicuously marked in letters not less than one-half inch in height "irregular pack."

SEC. 9. Section 828.55 of said code is amended to read:

828.55.	39 Standard cantaloupe crate	12	12	*21⅞ or*	22⅛
	40 Pony cantaloupe crate	11	11	*21⅞ or*	22⅛
	41 Jumbo cantaloupe crate	13	13	*21⅞ or*	22⅛
	42 Standard cantaloupe flat	4	12	*21⅞ or*	22⅛
	43 Special cantaloupe flat	4½	13½	*21⅞ or*	22⅛
	44 Special cantaloupe flat	5	14½	*21⅞ or*	22⅛

SEC. 10. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Experimental use of cantaloupe containers with a slightly shorter length than now provided by law has shown that such crates can more efficiently be loaded into railroad cars and with less breakage of crates in transit. In order to permit the use of crates with the shorter dimension for shipment of the current season's crop of cantaloupes most of which will be marketed prior to the time this act would otherwise become effective it is necessary that it take effect immediately."

Sardines may be packed in their own natural oil.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

One of the most important sources of our food supply is the fishing industry. Canned sardines for many years have been among, if not the largest contributors of this source. Recently, there has been a serious shortage in the sardines available, the exact cause of which has not been determined.

Because of the past four year scarcity of sardines in the present northern fishing grounds, it has been necessary for sardine canneries located in Monterey and San Francisco to transport fish by truck from southern waters in order to continue in business. By extending the southern boundaries of the northern district a short distance southward, a more natural dividing line between the two districts is established. In so doing, it will enable the northern canneries to utilize potential fishing areas which are seldom, if ever, utilized by fishing boats engaged in delivering fish to southern canneries.

Therefore, immediate changes in the division line between northern and southern districts on the taking of sardines as provided in this act are necessary, and delay therein will increase the existing shortage and further diminish a valuable food supply of the people of this State."

CONSIDERATION OF SENATE RESOLUTION NO. 114, AS AMENDED

Senate Resolution No. 114, as Amended

Relative to the use of Chinese Nationalist troops in combat against Chinese Communists

WHEREAS, During the past few days California's National Guard, 40th Division, arrived in Japan; and

WHEREAS, President Harry S Truman has seen fit to relieve General of the Army, Douglas MacArthur, of all authority as Commander of United Nations Forces in Korea, Commander of United States Military Forces, Far East Theatre, for alleged noncooperation; and

WHEREAS, General MacArthur has advocated the use of Chinese Nationalists military troops in combat against Chinese Communist military forces; and

WHEREAS, Such dismissal indicates an opinion of the President of the United States to refuse to allow Chinese Nationalists troops to aid and assist United States military forces presently engaged in combat against Communists military units in Korea; and

WHEREAS, The Senate of the State of California recognizes that the military action in Korea is but a battle in the war against communism; and

WHEREAS, The Chinese Nationalists army leaders have indicated their desire to aid and assist United States forces in engaging in combat for the purposes of defeating and destroying the Chinese Communist military forces; and

WHEREAS, All governments of nations desirous of joining in a crusade to destroy communistic aggressors should be encouraged and utilized to the end that the majority of lives sacrificed in the present conflict against the Chinese Communist troops should not be drawn in vast measure from American military personnel, and in particular the anticipated use of the California 40th National Guard Division; therefore

The Senate of the State of California respectfully memorializes the President of the United States to seriously re-examine the desirability of permitting the use of Chinese Nationalists military forces in the common cause of destroying Chinese Communists aggression in Asia, and the utilization of Chinese Nationalists troops prior to, or in conjunction with, utilization of California 40th National Guard Division in combat.

REQUEST FOR UNANIMOUS CONSENT

Senator Dillinger asked for, and was granted, unanimous consent to have the following explanation of his vote on the motion by Senator Dilworth which appears in the Journal of April 11, 1951, page 1256, regarding inviting General Douglas MacArthur to address the Senate, printed in the Journal:

Explanation of Vote

I voted against the motion by Senator Dilworth inviting General MacArthur to appear before the Senate because I do not see how the Senate could gain any information thereby that it does not already have or could readily get.

Its only possible effect would be, whether so intended or not, to embarrass the President and the Democratic administration.

After all, according to press reports, General MacArthur was relieved of his command for repeated and wilful insubordination, a serious military offense, for which an ordinary soldier would be court-martialed without question. It is still less to be condoned in an officer of responsible rank. The Senate should not condone it.

SENATOR DILLINGER

Cunningham moved that the Secretary of the Senate be directed to transmit copies of Senate Resolution No. 114 to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

By Senator Hulse:

Senate Resolution No. 118

Relating to the payment for room and board by relatives living with families with needy children

WHEREAS, The state program for aid to needy children had its beginning with the pioneer founders of this State, and the Senate of the State of California has always been in complete sympathy with such program and the necessity for protecting all dependent and neglected children; and

WHEREAS, The Senate of the State of California directed the Senate Interim Committee on State and Local Taxation to analyze and report upon the state program for aid to needy children, and such interim committee has recommended legislation on certain aspects of this program; and

WHEREAS, It has been found that employed relatives living in the same home with families with needy children are permitted in many instances to obtain board and room with the needy children's family for less than the usual community rate for such room and board, and in most instances such relatives are not legally responsible for the support of the needy children; and

WHEREAS, It is reasonable and just to expect employed relatives living in the same home with families with needy children to pay the usual community rate for the type of board and room they receive, and it is not feasible or practicable to outline in the law rules which would be equitable and effective as regards a just and reasonable payment by such relatives for their room and board; and

WHEREAS, The Department of Social Welfare and the State Social Welfare Board are officially authorized by law to formulate and promulgate necessary rules and regulations for aid to needy children which are consistent with law, and the Senate believes that the Department of Social Welfare and the State Social Welfare Board should give more attention to the development of plans and methods whereby families may achieve extra support; now, therefore, be it

Resolved, That the Department of Social Welfare and the State Social Welfare Board be directed to investigate the extent to which employed relatives living in the same home with families with needy children are contributing to the support of the family, and to formulate and promulgate such rules and regulations as are necessary to carry out the purposes of this resolution.

Resolution read, and referred to Committee on Rules.

Article 2. Scope of Regulation

2859. The practice of vocational nursing within the meaning of this chapter is the performance of services requiring those technical, manual skills acquired by means of a course in an accredited school of vocational nursing, or its equivalent, practiced under the direction of a licensed physician, or registered professional nurse, as defined in Section 2725 of the Business and Professions Code.

A vocational nurse, within the meaning of this chapter, is a person who has met all the legal requirements for a license as a vocational nurse in this State and who for compensation or personal profit engages in vocational nursing as the same is hereinabove defined.

2860. This chapter confers no authority to practice medicine or surgery or to undertake the prevention, treatment or cure of disease, pain, injury, deformity, or mental or physical condition in violation of any provision of law.

2861. This chapter does not prohibit the performance of nursing services by any person not licensed under this chapter; provided, that such person shall not in any way assume to practice as a licensed vocational nurse.

2862. Vocational nursing services may be rendered by a student enrolled in an accredited school of vocational nursing when these services are incidental to his course of study, and may be rendered by a graduate of such school working under its supervision pending the results of the first licensing examination scheduled by the board following his graduation, if this examination is taken by him.

2863. This chapter does not prohibit vocational nursing or the care of the sick, with or without compensation or personal profit, when done by the adherents of and in connection with the practice of the religious tenets of any well recognized church or denomination, so long as they do not otherwise engage in the practice of vocational nursing.

2864. Every licensee under this chapter may be known as a licensed vocational nurse and may place the letters "L. V. N." after his name.

2866. An applicant for a licensed vocational nurse license shall comply with each of the following:

(a) Be at least 17 years of age.

(b) Be a citizen of the United States or have indicated intention to become a citizen of the United States.

(c) Have successfully completed at least an approved course of study through the tenth grade or the equivalent thereof as specified by the board.

(d) Have successfully completed the prescribed course of study in an accredited school of vocational nursing or have graduated from a school which, in the opinion of the board, maintains and gives a course which is equivalent to the minimum requirements for an accredited school of vocational nursing in this State.

(e) Have committed no act which, if committed by a licensee, would be a ground for disciplinary action.

2867. An applicant for a license authorizing him to practice vocational nursing in this State under this chapter, upon the filing of his application shall pay the fee required by this chapter.

2868. The board shall hold not less than two examinations each year for applicants desirous of practicing vocational nursing in this State, at such times and places as the board may determine.

2869. Not less than two months prior to the date of each examination, the board shall cause a notice thereof to be published in two or more newspapers of general circulation, and one nursing journal, all published within the State of California and selected by the board.

2870. Examinations shall be written, but in the discretion of the board may be supplemented by an oral or practical examination in such subjects as the board determines. All examinations shall be conducted by such persons and in such manner and under such rules and regulations as the board may prescribe.

The board shall finally pass or reject all applicants. Its actions shall be final and conclusive and not subject to review by any court or other authority.

2871. Any applicant who fails to pass the examination by the board may take another examination without payment of an additional fee, if not less than six nor more than 12 months have elapsed from the date he took the first examination.

Upon the failure of an applicant to pass the second examination the board may require him to complete additional courses or study designated by it. Before taking any

subsequent examination he shall present to the board satisfactory evidence of having completed such additional courses or study, and shall pay an additional fee equal to the fee prescribed by this chapter for the filing of an original application.

2872. The board shall issue a license to each applicant who passes the examination. The form of the license shall be determined by the board.

2873. Any person possessing education and/or experience equivalent to that acquired in an accredited school of vocational nursing may be licensed as a vocational nurse under the provisions of this chapter, provided that he successfully demonstrates to the board that he possesses the necessary qualifications, and successfully passes such examinations or tests as may from time to time be required by the board.

2874. Nothing in this chapter shall apply to any nurse employed in the public health service or by any agency, bureau or division of the Federal Government while in the discharge of his official duties, nor to any nurse employed by the United States Government or any bureau, division or agency thereof, in any hospital wholly maintained and supported by it in the State of California while in the discharge of his duties in such institution.

(c) Suspending his right to practice vocational nursing for a period not exceeding one year.

(d) Revoking his license.

2877. If the holder of a license is suspended, he shall not be entitled to practice vocational nursing during the term of suspension.

Upon the expiration of the term of suspension, he shall be reinstated by the board and shall be entitled to resume his practice of vocational nursing unless it is established to the satisfaction of the board that he has practice vocational nursing in this State during the term of suspension. In this event, the board shall revoke his license.

2883. It shall be the duty of the board, through its executive secretary, to inspect all schools of vocational nursing in this State at such times as the board shall deem necessary. Written reports of the executive secretary's visits shall be made to the board, which shall thereupon approve as accredited such schools of nursing as meet the requirements provided by the board.

Upon receiving the report of the executive secretary, if the board determines that any accredited school of vocational nursing is not maintaining the standard required by the board, notice thereof in writing specifying the defect or defects shall be immediately given to the school. If the defects are not corrected within a reasonable time, the school of nursing may be removed from the accredited list and notice thereof in writing given to it.

2884. None of the provisions of this chapter shall be applicable to any school or schools conducted by any well recognized church or denomination for the purpose of training the adherents of such church or denomination in the care of the sick in accordance with its religious tenets.

Article 5. Penal Provisions

2893. Within 10 days after the beginning of each month, the board shall report to the State Controller the amount and source of all collections made under the provisions of this chapter. At the same time, and subject to Section 2891, all such amounts shall be paid into the State Treasury, where they shall be placed to the credit of the Board of Vocational Nurse Examiners Fund of the State of California.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 13, 1951

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 93, entitled: "An act to amend Sections 102, 103, 146, 170, 188, 215, 254, 260, 262, 320, 321, 340, 394, 450, 451, 452, 457, 459, 461, 463, 464, 465, 550, 644, 644.1, 647, 648 and to add Section 213 of the Military and Veterans Code, relating to the call of the militia to active service, federal service, the reduction of noncommissioned officers, the discharge of personnel, pay and allowances, disability benefits, courts-martial jurisdiction and procedure, disciplinary action and punishment, the admission to bail, Uniform Code of Military Justice, courts-martial process, confinement of minors, competitive exercises, discrimination against members of the National Guard, service awards, correction of orders and directives, emergency purchases and services, membership in the California Defense and Security Corps, reversion to state control, leasing of land for military purposes."

My objections to this bill are as follows:

I am advised that this bill contains several technical errors and errors in draftsmanship. It is undesirable to have such errors entered on our statute books. A duplicate bill in the Assembly has been amended to correct these errors in form and can be used as a vehicle to enact the intention of the Legislature.

This problem has been discussed with the first author on the bill and he has concurred in the suggestion that this bill be returned without my approval.

Respectfully submitted,

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 93 ordered to unfinished business file.

Amendment No. 1

In line 1 of the title of the printed bill, strike out "amend Section 5062 of", and insert "add Sections 5049.1 and 5049.2 to".

Amendment No. 2

In line 2 of the title of said bill, before the period, insert "declaring the urgency thereof, to take effect immediately".

Amendment No. 3

On page 1 of said bill, strike out lines 1 to 8, inclusive, and insert

"SECTION 1. Section 5049.1 is added to the Education Code, to read:

5049.1. When an apportionment becomes final, the board may allow the school district to which the apportionment has been made to expend a part of such apportionment for the payment of the expense the district has incurred in connection with the approved project subsequent to the date on which the board received the district's application and prior to the date when the district receives funds under the final apportionment.

SEC. 2. Section 5049.2 is added to said code, to read:

5049.2. A school district applying for an apportionment may make any expenditures, or committments for expenditures, in connection with a project, subsequent to the date on which the board received the district's application and prior to the date on which the district receives funds under the final apportionment, which the district is authorized to make after the apportionment becomes final.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law it is doubtful whether a school district may commence preliminary work on the project for which it is applying for an apportionment from the State for school building aid before the apportionment becomes final. It is also doubtful whether a school district, when it receives money under such an apportionment, may expend part of the money for costs incurred in connection with the project before it received the money. In view of rising construction costs it is highly desirable for districts to make expenditures, or committments for expenditures, in connection with school construction projects at the earliest possible time and the districts should be reimbursed for such expenditures when funds are received under an apportionment of state funds for such projects. It is therefore necessary that this act take effect immediately."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Education.

(c) "Public agency" means State, or any county, city, municipal corporation, school district, irrigation district, water district, or other district.

(d) "Armed forces" means the "armed forces" as defined in Section 18540 of the Government Code.

(e) "Recognized military service" means service as defined in Section 18540.3 of the Government Code.

SEC. 2. Section 395 of the Military and Veterans Code is amended to read:

395. Any public employee shall be entitled to a temporary military leave of absence while engaged in ordered temporary military or naval duty and while going to and returning from such duty.

He shall have an absolute right to be restored to his former office or position and status formerly had by him in the same locality and in the same office, board, commission, agency, or institution of the public agency upon the termination of such temporary military duty. If the office or position has been abolished or otherwise has

ceased to exist during his absence, he shall be reinstated to a position of like seniority, status, and pay if such position exists, or if no such position exists he shall have the same rights and privileges that he would have had if he occupied the position when it ceased to exist and had not taken temporary military leave of absence.

Any public employee who has been in the continuous service of the public agency for a period of not less than one year prior to the date upon which his temporary military leave of absence begins, shall receive the same vacation, sick leave, and holiday privileges and the same promotion or continuance in office, employment, reappointment to office, or re-employment rights and privileges that he would have enjoyed had he not been absent therefrom; excepting that an uncompleted probationary period if any in the public agency must be completed upon reinstatement as provided by law or rule of the agency. For the purposes of this section, in determining the one year of service, in a public agency all service of said public employee in recognized military service may be counted as public agency service.

SEC. 3. Section 395.01 is added to said code, to read:

395.01. Any public employee who is on temporary military leave of absence and who has been in continuous service of a public agency for a period of not less than one year prior to the day on which the absence begins shall be entitled to receive his salary or compenation as such public employee for the first 30 calendar days of any such absence. Pay for such purposes shall not exceed 30 days in any one fiscal year. For the purposes of this section, in determining the one year of public agency service, all service of said public employee in the recognized military service may be counted as public agency service.

SEC. 4. Section 395.02 is added to said code, to read:

395.02. Every officer and employee of a public agency who is on military leave other than temporary military leave of absence who has been in the continuous service of a public agency for a period of not less than one year prior to the date on which the absence begins shall be entitled to receive his salary or compensation as such officer or employee for the first 30 calendar days while engaged in the performance of ordered military duty.

As used in this section only, the terms "officer" and "employee" mean an officer or employee who

(a) Is ordered into active military duty as a member of a reserve component of the armed forces of the United States;

(b) Is ordered into active federal military duty as a member of the National Guard or naval militia; or

(c) Is inducted or otherwise ordered or called into active duty as a member of the armed forces of the United States.

SEC. 5. Section 395.03 is added to said code, to read:

395.03. No more than 30 days' pay shall be allowed under the provisions of Section 395.01 and 395.02, or both, for any one leave of absence or during any one fiscal year.

SEC. 6. Section 395.04 is added to said code, to read:

395.04. During such time as an officer or enlisted man of the California National Guard, who is on full-time active duty in the military service of the State, and is engaged, with the approval of the Adjutant General, in the military service of the State in attendance at drills, camps, or special exercises, sponsored by federal authority or by the War Department, as a member of the National Guard of the United States, he shall receive his salary, pay, and compensation as provided in Sections 320 and 321 of this code.

SEC. 7. Section 395.05 is added to said code, to read:

395.05. Any public employee who is a member of the National Guard, shall be entitled to absent himself from his duties or service, without regard to the length of his public service, while engaged in the performance of ordered military or naval duty and while going to and returning from such duty, provided such duty is performed during such time as the Governor may have issued a proclamation of a state of extreme emergency or during such time as the National Guard may be on active duty in one or more of the situations described or included in Section 146 of this code provided such absence does not exceed the duration of such emergency. During the absence of such officer or employee while engaged in such military service during such emergency and while going to and returning from such duty, he shall receive his salary or compensation as such officer or employee and shall not be subjected by any person directly or indirectly by reason of such absence to any loss or diminution of vacation or holiday privilege or be prejudiced by reason of such absence with reference to promotion or continuance in office, employment, reappointment to office, or re-employment.

SEC. 8. Section 395.06 is added to said code, to read:

395.06. Every officer or enlisted man of the National Guard who, in order to undertake active military duty in the service of the State during such time as the Governor may have issued a proclamation of a state of insurrection pursuant to Section 143 of this code or proclamation of state of extreme emergency or during such time as the National Guard may be on active duty in one or more of the situations described or included in Section 146 of this code, has left or leaves a position, other

than a temporary position, in the employ of a private employer, and who receives a certificate of satisfactory service in the National Guard, and is still qualified to perform the duties of such position, and makes application within 40 days after he is relieved from such active emergency service shall be considered as on leave of absence during such period and shall be restored by his former employer to the former position or to a position of like seniority, status and pay without loss of retirement or other benefits unless the employer's circumstances have so changed as to make it impossible or unreasonable to do so, and shall not be discharged from the position without cause within one year after being restored to said position.

In case any employer fails or refuses to comply with the provisions of this section the superior court of the county in which such employer maintains a place of business shall have power, upon the filing of a motion, petition, or other appropriate pleading by the person entitled to the benefits of such provisions, to specifically require such employer to comply with such provisions, and, as an incident thereto, to compensate such person for any loss of wages or benefits suffered by reason of such employer's unlawful action. The court shall order a speedy hearing in any such case and shall advance it on the calendar. Upon application to the district attorney of the county in which such employer maintains a place of business, by any person claiming to be entitled to the benefits of such provisions, such district attorney, if reasonably satisfied that the person so applying is entitled to such benefits, shall appear and act as attorney for such person in the amicable adjustment of the claim or in the filing of any motion, petition, or other appropriate pleading and the prosecution thereof to specifically require such employer to comply with such provisions. No fees or court costs shall be taxed against the person so applying for such benefits.

SEC. 9. It is hereby declared that this act except for the provisions of subdivision (c) of 395.02 of the Military and Veterans Code is amended hereby, is not a change in the present law but is a declaration of existing law as it has existed since the effective date of Chapter 1396, Statutes of 1949.

SEC. 10. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such urgency is as follows:

Due to the Korean crisis and the unsettled world conditions many thousands of public employees, including more than 1,000 state employees, are now on military leaves of absence and serving with the armed forces. The rights of such persons under existing provisions of the Military and Veterans Code are uncertain due to ambiguities in the existing law. This uncertainty has and will continue to result in delayed actions on the claims of such employees and has further resulted in hardship to the employees involved and to their families. These conditions may well affect the morale of those employees who are now in the armed forces and render them less able to perform their military duties. It is therefore necessary that this act take effect immediately."

Amendment read, and adopted.

Bill ordered printed, and re-referred to Committee on Governmental Efficiency.

Honorable Joseph A. Beek

Gentlemen:

This is to advise that I still occupy the same position that was shown in my letter of April 7, 1950, and again shown in my letter of October 6, 1950; namely, Secretary-Treasurer of the California State Federation of Labor, an affiliate of the American Federation of Labor, which is an unincorporated association, to-wit: a bonafide labor organization with which most of the American Federation of Labor Unions in the state of California are affiliated.

This organization is basically, fundamentally and primarily a labor organization and is not concerned primarily with the influencing of legislatures or the members thereof. The undersigned is employed primarily and essentially as the full time paid elected Executive Secretary-Treasurer of such organization and not as a lobbyist.

In order to cooperate fully with the State Government I desire to report no expenditures in connection with the legislature since my last report of October 6, 1950.

As there will be some expenditures during the month of January, I shall make a report before February 10, 1951, for January expenditures.

Dear Mr. Post:

It was my understanding that if I had no expenditures in connection with my activities as legislative representative for our Association it was not necessary to make a monthly report.

However, in again reading the provisions of the Act covering lobbying, I gather that even though no expenditures have been made a report must necessarily be made.

For that reason I would like to report that during January and February of this year no money has been expended by me in this connection.

I trust that this letter will be considered as having made the necessary reports.

I am returning herewith your mimeographed notice to the effect that my statement of expenses for the month of January, 1951, required to be filed with this office under Chapter 8 of Part 1 of Division 2 of Title 2 of the Government Code has not been received.

In failing to file such statement I acted in accordance with the advice of Mr. Paulucci of the Office of the Legislative Counsel to the effect that such filing was unnecessary in my case inasmuch as I would appear before legislative committees only in my capacity as a public official at the request of such committee.

I trust that I have taken the proper course.

Dear Sir:

Because I have an active interest in legislation connected with municipal financing, I presume I do attempt to "influence legislation" at times.

During the first half, I discussed certain newly proposed legislation along these lines with various Senators. No one seemed to know if I should register as a "lobbyist", but I did so—on the Senate side only—to be certain. I was not doing something illegal.

Therefore, I presume I should report for the record even though I have nothing to report in the way of income or expenditures connected with legislation.

Yours very truly,

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law, a change in district boundaries and the annexation of territory to a school district takes effect for all purposes on July 1st following the completion of the proceedings for such change or annexation. However, there is no provision in the law for the postponing of such effective date upon the initiation of a court action to determine the validity of the change of boundaries or annexation proceedings. Unless such effective date is postponed until the final determination of the validity of the proceedings, the transfer of the obligations for bonded indebtedness of the districts involved and of the obligation for the support of the schools in the affected area, resulting from the proceedings, will nonetheless take effect, and the district affected will make expenditures and incur obligations, which in the event the proceedings are

held invalid, will be unnecessary and in many districts would cause financial difficulties. Since the effective date of annexation and change of boundaries proceedings is July 1st, it is necessary that the act take effect immediately."

REQUEST FOR UNANIMOUS CONSENT

Senator Tenney asked for, and was granted, unanimous consent to have the following Opinion of the Legislative Counsel regarding Assembly Bill No. 1683 printed in the Journal:

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, April 13, 1951

Hon. Clarence C. Ward
Senate Chamber

Assembly Bill No. 1683—No. 6981

DEAR SENATOR WARD: With respect to the phrase "advocating the overthrow of the Government of the United States or of this State by force, violence or other unconstitutional means," as used in Assembly Bill No. 1683, you ask the following questions:

Questions

(1) How broad is the phrase?

(2) If a bill were introduced which would deny due process of law, or abolish the State's taxing power, or abolish suffrage, government ownership, or the right of the Federal Government to issue currency, would the author of the bill or the legislators voting for it be guilty of the conduct embraced within the quoted phrase?

Opinion

(1) The breadth of the phrase will be discussed below.

(2) The answer is "no."

Analysis

The phrase which is the subject of your inquiry is found in the "criminal syndicalism" statutes of several states. For example, a New York statute[1] defined "criminal anarchy" as "the doctrine that organized government should be overthrown by force or violence, or * * * by any unlawful means" and provided that "the *advocacy* of such doctrine either by word of mouth or writing is a felony."

[1] Laws 1909, Chap. 88; Consol. Laws 1909, Ch. 40.

In *Gitlow* v. *New York*, 268 U. S. 652, the United States Supreme Court in construing this statute said (p. 664, 665):

> "The statute does not penalize the utterance or publication of abstract 'doctrine' or academic discussion *having no quality of incitement to any concrete action.* It is not aimed against mere historical or philosophical essays. It does not restrain the advocacy of changes in the form of government by constitutional and lawful means. What it prohibits is language advocating, advising, or teaching [665] the overthrow of organized government by unlawful means. These words imply urging to action. Advocacy is defined in the Century Dictionary as: '1. The act of pleading for, supporting, or recommending; active espousal.' It is not the abstract 'doctrine' of overthrowing organized government by unlawful means which is denounced by the statute, but *the advocacy of action for the accomplishment of that purpose.*"

Under this language the phrase in question covers pleading for, supporting or recommending, or actively espousing the overthrow of the Government, State or Federal, by force, violence or other unconstitutional means, in circumstances where such pleading, supporting, recommending or espousing has the "quality of *incitement to concrete action*" to accomplish the overthrow of the Government by "force, violence or other unconstitutional means."

As to the phrase "other unconstitutional means," we believe it includes any means of changing the existing government which is not provided for by the Constitution and laws of the United States and of this State.

In the *Gitlow* case (above) the means advocated were "mass industrial revolts usurping the functions of municipal government, political mass strikes directed against the parliamentary state, and revolutionary mass action." The court said these means "necessarily imply the use of force and violence and in their nature are inherently unlawful in a constitutional government of law and order."

The examples given in your second question involve the employment of proper parliamentary process sanctioned by the Constitution—the introduction of a bill, the casting of a vote by a member of a legislative body, the enactment of a law. The fact that bill or law attempting to change the existing form of government may violate some provision of the Constitution does not render the parliamentary process (the *means* employed to effect the change) by which it is introduced or passed unlawful or unconstitutional.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By A. C. MORRISON, Deputy

Two copies to Hon. Donald L. Grunsky pursuant to Joint Rule No. 34.

RESOLUTIONS

The following resolution was offered:

By Senators Miller and McCarthy:

Senate Resolution No. 124

Relating to temporary advancements from the State Highway Fund

WHEREAS, Senate Bill 416, as originally introduced, appropriated $750,000 from the General Fund for engineering expenses looking toward the construction of a toll bridge or other toll highway crossing between the Counties of Marin and Contra Costa, the amount so appropriated to be returned from the first proceeds of revenue bonds sold to construct said bridge or from tolls on the San Francisco-Oakland Bay Bridge after all other indebtedness thereon has been retired; and

WHEREAS, At its meeting on April 16, 1951, the Senate Committee on Finance accepted amendments to said bill providing that the original appropriation should come from the State Highway Fund; and

WHEREAS, Before so amending said bill said committee had determined that said amount could be borrowed from the State Highway Fund at this particular time without disturbing any budget adopted by the California Highway Commission for the expenditure of highway funds; now, therefore, be it

Resolved, That the action of said committee and the passage of the bill as so amended by the Senate is hereby declared not to constitute a precedent for the advancing of money from the State Highway Fund for additional like projects or for any other purposes.

Resolution read, and referred to Committee on Rules.

REQUEST FOR UNANIMOUS CONSENT

Senator Tenney asked for, and was granted, unanimous consent to have the following Opinion of the Legislative Counsel regarding Senate Joint Resolution No. 2 re Impeachment of Secretary of State, printed in the Journal:

OPINION OF THE LEGISLATIVE COUNSEL

COPY

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, April 16, 1951

Hon. Edwin J. Regan
Senate Chamber

Senate Joint Resolution No. 2 Re Impeachment of Secretary of State—No. 7067

DEAR SENATOR REGAN:

Question

You have asked our opinion whether the allegations in Senate Joint Resolution No. 2 relative to the impeachment of Secretary of State

Dean Acheson would, if true, form a sufficient legal basis for his impeachment.

Opinion

It is our opinion that the allegations in Senate Joint Resolution No. 2, if proved to be true, are adequate for a conviction in impeachment proceedings.

Analysis

Section 4 of Article II of the Constitution of the United States provides:

> "The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and conviction of, Treason, Bribery, or other high Crimes and Misdemeanors."

The weight of authority appears to be that an impeachment may be had upon a charge that does not necessarily involve an indictable criminal offense. This subject is discussed at length in "A Treatise on Federal Impeachments" by Alex. Simpson, Jr., published in 1916. Referring to this provision of the Constitution he states, "the word 'crimes' was used to negative the thought that the only criminal offences for which an impeachment would lie were 'treason' and 'bribery'; and the word 'misdemeanors' was used to negative the thought that only 'crimes' were impeachable." (Page 33.)

At page 36 of the same work appears the following quotation, from Story's Commentaries on the Constitution,

> "In examining the parliamentary history of impeachments, it will be found that many offences, not easily definable by law, and many of purely political character, have been deemed high crimes and misdemeanors worthy of this extraordinary remedy. Thus, lord chancellors, and judges, and other magistrates, have not only been impeached for bribery, and for acting grossly contrary to the duties of their office, but for misleading their sovereign by unconstitutional opinions, and for attempts to subvert the fundamental laws and introduce arbitrary power. So, where the lord chancellor has been thought to put the great seal to an ignominious treaty; a lord admiral to have neglected the safeguard of the sea, an ambassador to have betrayed his trust; a privy counsellor to have propounded, or supported pernicious and dishonorable measures; or a confidential adviser of his sovereign to have obtained exorbitant grants, or incompatible employments; these have been all deemed impeachable offences."

In view of the foregoing it is unnecessary to determine whether the allegations in S.J.R. 2 include charges that would form the basis for prosecution under indictment by the courts since it is clear that the allegations do include charges that come within the meaning of "misdemeanors" as used in the Federal Constitution with reference to impeachment proceedings.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

Two copies to Hon. Jack B. Tenney, pursuant to Joint Rule 34.

(1) Any or all removals or relocations of any utility facilities completed by the utility prior to the effective date of such contract as required by notice given by the department wherever necessary to accommodate any or all state freeways, where: (a) the obligations or costs in respect thereto to be borne by each party is in dispute; and (b) the claim of the utility is: (i) founded upon a removal or relocation completed by the utility not longer than three years immediately preceding the effective date of such contract; or (ii) involved in an action pending in a court of competent jurisdiction if such action was commenced within three years after completion by the utility of the removal or relocation in question; and

(2) Any or all removals or relocations of any utility facilities to be undertaken or completed by the utility after the effective date of such contract as required by notice given by the department wherever necessary to accommodate any or all state freeways.

(B) Those provisions of any such contract settling the claims of the parties in respect to any or all removals or relocations of any utility facilities completed by the utility prior to the effective date of such contract, as authorized in subdivision (A) (1) of this section, shall be irrevocable after the execution of such contract, except as the same may be changed or modified by mutual consent of the parties in writing; and either party may maintain an action in a court of competent jurisdiction upon such provisions of said contract at any time within two years after the effective date of such contract, and the utility need file no claim with any state agency as a condition precedent to the maintenance of any such action.

(C) Those provisions of any such contract dealing with any or all removals or relocations of any utility facilities to be undertaken or completed by the utility after the effective date of such contract, as authorized in subdivision (A) (2) of this section, shall be under and subject to the following limitations and requirements:

(1) While such provisions of said contract remain in effect, such provisions shall govern exclusively the determination of the obligations and costs to be borne by each party in regard to every removal or relocation covered thereby undertaken or completed by the utility after the effective date of such contract, whether notice in respect thereto was given by the department to the utility before or after the effective date of such contract, in lieu of the determination thereof under the foregoing provisions of this article as now or hereafter existing and any and all other laws which would be applicable to said subject matter but for said contract, save to the extent that any such laws may be referred to, retained, and made applicable by, such provisions of said contracts; provided: (a) where before the effective date of a contract entered into under this section the parties executed an agreement in respect to the obligations and costs to be borne by each party as to a particular removal or relocation under a notice given by the department, the provisions of such last mentioned agreement shall govern as to the obligations and costs to be borne by each party in respect thereto; and (b) where a particular notice given by the department before the effective date of a contract entered into under this section specifies a removal or relocation to be made at the expense of the utility, the utility shall be and remain bound thereby unless the utility advised the department in writing of its disagreement with such determination within the time specified in any agreement then in effect between the department and the utility in respect to the procedure to be followed in such cases, or, if none, within a reasonable time after receipt by the utility of said notice.

(2) Either party may maintain an action in a court of competent jurisdiction for an adjudication as to the obligations and costs to be borne by each party under such provisions of said contract at any time within four years after the cause of action first arose thereunder. Such a cause of action shall be deemed to arise upon and at the time of the completion by the utility of the removal or relocation in question. The filing of a claim with any state agency shall not be deemed a condition precedent to the maintenance by the utility of any such action.

(3) Such provisions of said contract shall terminate: (i) automatically upon the repeal of this section or of subdivisions (A) (2) and (C) hereof; and (ii) also, unless sooner so automatically terminated, at such time or in such manner as may be provided in said contract; and in the event of either such termination, the laws applicable to the subject matter of such provisions of said contract as existing at the time of such termination shall thereafter govern, save as to removals or relocations theretofore required of the utility by the department under notice mailed or delivered to the utility prior to such termination, whether work upon such removal or relocation has theretofore commenced, is in progress, or has been completed."

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 416:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 9, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 416, "An act making an appropriation for the surveys, plans, estimates of cost, specifications and other engineering expenses for the construction of a toll bridge or other toll highway crossing of the Bay of San Francisco from the County of Marin to the County of Contra Costa, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill makes an appropriation of $750,000 to the Department of Public Works to cover the cost of plans and surveys for the construction of a toll bridge between

Marin and Contra Costa Counties. This study should be undertaken at the earliest possible date.

I therefore recommend consideration of Senate Bill No. 416 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

PRINTER'S NOTE—There being no 7-point strikeout type available, the material which should appear in strikeout type in the following amendment is indicated by being enclosed within brackets.

Amendment No. 2

On page 1 of said bill, strike out line 1, and insert

"SECTION 1. Section 736.3 of the Agricultural Code is amended to read:

736.3. Any stabilization and marketing plan shall contain the following provisions:

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth:

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Section 654a of the Penal Code.

(5) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into

with such producer or association of producers stating the amount of fluid milk to be purchased for any period. The quantity of such milk to be paid for as Class 1 in pounds of milk or pounds of milk fat or gallons of milk, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall not be later than the last day of the month following the month during which the fluid milk was purchased, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 3, as said class is defined in Section 735.3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the federal, state or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area.

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Said provisions shall include a requirement that the price which shall be paid to producers shall be not less than the minimum price established for the marketing area in which the fluid milk or fluid milk for fluid cream is ultimately sold or distributed whether or not the ultimate sale or distribution is made by the same distributor who first received the fluid milk or fluid milk for fluid cream or by another distributor or distributors, and in the event the fluid milk or fluid milk for fluid cream is ultimately sold or distributed in a place within the jurisdiction of the State in which no stabilization or marketing plan is in effect the price paid the producer shall be not less than the average price paid producers for fluid milk or fluid milk for fluid cream at the plants in the vicinity where such fluid milk or fluid milk for fluid cream is ultimately sold or distributed as such price is determined by the director from contracts required to be filed pursuant to this section.

Any stabilization and marketing plan may contain the following provisions:

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured; the volume of fluid milk received from such producer in pounds of milk, the milk-fat test of such milk and the amount of fluid milk in milk-fat pounds paid for in the several classes and the prices paid for the various classes for each month.

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.

[(e) Provisions whereby the director may provide methods for the establishment of minimum prices for fluid milk or fluid milk for fluid cream received within a marketing area regardless of whether such fluid milk or fluid milk for fluid cream is subsequently sold or distributed within or without such marketing area or within or without the jurisdiction of the State of California. Such stabilization and marketing plans may provide for the establishment of prices for fluid milk or fluid milk for fluid cream whether or not such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect. The stabilization and marketing plan may provide that producers shall be paid not less than the minimum prices established for the marketing area wherein such fluid milk or fluid milk for fluid cream is ultimately

sold or distributed, and may further provide that in the event such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in any place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such fluid milk or fluid milk for fluid cream may be paid by the distributor to the producer thereof at not less than the average price paid by distributors to producers for fluid milk or fluid milk for fluid cream of similar grade and quality at the plants in the vicinity where such fluid milk or fluid milk for fluid cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.]

The director may issue and make effective provisions establishing minimum prices to be paid by distributors to producer-distributors for milk which is not used by the purchasing distributor as Class 1 milk and which provisions may provide that such milk if used in classes other than Class 1 by the purchasing distributor may be paid for at the minimum prices established by the director for such other usage but which shall not be less than the prices as found by the director to be paid by manufacturing milk plants in or adjacent to the area using milk for similar purposes. Such prices shall remain in effect only for the period during which, as determined by the director, there is a surplus of producer-distributor milk.

(f) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) percent of the total volume of fluid milk used for pasteurization purposes and who represent not less than sixty-five (65) percent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) percent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

(g) Provision whereby sales stimulation or consumer educational programs may be formulated and administered to increase the consumption of fluid milk and fluid cream, or other dairy products; provided, that such programs shall be carried on without reference to a particular brand or trade name; and provided further, that no such sales stimulation or consumer educational program shall be carried on which shall make use of false or unwarranted claims on behalf of such products or which disparages the quality, value, sale or use of any fluid milk or fluid cream or any other agricultural commodity authorized by law to be marketed within such marketing area.

Before any stabilization and marketing plan may provide for sales stimulation and consumer educational programs, not less than sixty-five (65) percent of the producers and who produce not less than sixty-five (65) percent of the total volume of fluid milk consumed in any marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan. If such a program is requested by distributors it shall be necessary that not less than sixty-five (65) percent of the total number of distributors and who distribute not less

than sixty-five (65) percent of the total volume of fluid milk for consumption in the marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan.

The petition shall bear the signatures of petitioners, their addresses and the approximate daily volume of fluid milk handled in gallons and milk-fat pounds and the type of product distributed, together with the estimated cost of the program each month and the number of months the program is to continue in operation.

A sales stimulation and consumer educational program instituted by producers shall be financed by all producers supplying fluid milk to the marketing area. Such program, if instituted by distributors, shall be financed by all distributors supplying fluid milk to the marketing area. If such program is instituted by both producers and distributors, both producers and distributors shall finance the program equally.

If the program is instituted by producers the director is hereby empowered to require producers to pay assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributor, including the production of distributors who are also producers.

If the program is instituted by distributors the director is hereby empowered to require distributors to pay assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributors, including the production of distributors who are also producers.

If the program is instituted by both producers and distributors, the director is hereby empowered to require both producers and distributors to pay assessments for the purpose of providing funds for formulating, administering, and carrying on such program. The assessments to be paid by distributors shall not exceed two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributors including the production of distributors who are likewise producers. Assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis, not more than seven mills ($0.007) for each 10 gallons of fluid milk produced by producers and received by distributors, shall likewise be paid by producers. In no instance shall the combined assessments exceed four mills ($0.004) per pound milk fat, or if the program is instituted upon a gallonage basis not more than fourteen mills ($0.014) for each 10 gallons of fluid milk received from producers and processed by distributors for distribution in the marketing area in the form of whole milk, fluid cream, or manufactured dairy products derived from fluid milk.

Before a program may be instituted a public hearing shall be called by the director, the procedure for which public hearing is to be the same as that required for the institution of a stabilization and marketing plan for fluid milk. At such public hearing testimony and evidence shall be taken to determine the necessity of such a program, the estimated costs of the program, the time during which the program is to be continued, and such other matters as are necessary in the institution of the program.

If, after public hearing and consideration of the testimony and evidence presented at said hearing, the director find that a sales stimulation and consumer educational program will tend to effectuate the purposes of this chapter, he shall issue an order making effective such program. CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF SENATE BILLS (RESUMED)

Senate Resolution No. 62

Relative to requesting the construction of a four-lane divided highway between the Cities of Sacramento and Roseville

WHEREAS, Recent developments on the international front have given rise to an increased tempo in the development of civil defense plans on both the state and federal level; and

WHEREAS, An integral part of all civil defense plans is the development of adequate highway systems to take care of the flow of traffic which will ensue from the evacuation of civilians from stricken areas and the coming and going of emergency aid to and from such areas; and

WHEREAS, It is now mandatory, therefore, to insure that such highway systems will be available when needed so that such increased traffic will not lead to unnecessary congestion; and

WHEREAS, United States Highway Route 40 (State Highway Route 3), between Sacramento and Roseville, will quite naturally be one of the major parts of California's civil defense highway systems since it connects two of the important military target areas in case of war; and

WHEREAS, It is obvious that this highway should be immediately placed in a condition which will enable it to handle heavy traffic with the least possible congestion and that the construction of four-lane divided highways on those portions of said highway which may most likely become congested will do much to accomplish this purpose; and

WHEREAS, There is at present no such four-lane divided highway between the Cities of Sacramento and Roseville, which portion is one of the most heavily traveled parts of United States Highway Route 40; now, therefore, be it

Resolved by the Senate of the State of California, That the Department of Public Works, Division of Highways, is urgently requested to take immediate steps toward the construction of a four-lane divided highway between the City of Sacramento and the City of Roseville; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the State Highway Commission, Director of Public Works and the State Highway Engineer.

"SECTION 1. Part 6, comprising Sections 12600 to 12608, inclusive, is added to Division 6 of the Water Code, to read:

PART 6. IMPLEMENTATION OF THE STATE WATER PLAN

12600. It is hereby found and determined that the State Water Plan, as now in force or as may hereafter be in force, does and will continue to have for its fundamental principle the transfer of water from water surplus areas to water deficient areas. The constant and increasing shortage of the underground waters of the State and the lack of adequate storage and distribution facilities for available surface waters present a problem in many sections of the State which require prompt solution. More than 80 percent of the surface waters of the State originate in the water surplus areas, as hereinafter defined, and more than 75 percent of such water at present flows unused into the Pacific Ocean. The provisions of this part are for the purpose of insuring the maximum conservation of those waters toward the fulfillment of the objectives of Section 3 of Article XIV of the State Constitution and thereby to provide, in time, water to all water deficient areas of the State.

12601. As used in this part "water surplus areas" means the mountainous areas of the North Pacific Basin and the Sierra and Siskiyou Mountain areas in the Sacramento Basin and in that portion of the San Joaquin Basin north of Mariposa County.

12602. Nothing in this part shall be construed to interfere with existing projects in the water surplus areas or to the use of water under permits or licenses issued prior to the effective date of this part.

12603. As used in this part "board" means the State Water Resources Board and "division" means the Division of Water Resources.

12604. The board and the division shall diligently encourage and assist in the formation of county water districts or other appropriate public agencies in water surplus areas and shall provide such districts and all other public districts existing in such areas with such engineering plans and recommendations for the development of their water resources as the board and the division shall deem proper for the most effective conservation of such resources, including the maximum development of hydroelectric power in connection therewith.

12605. The division shall grant permits and licenses to public districts existing in the water surplus areas for the use of water provided in the plan prepared for the district by the board and the division even though the ultimate use of such water is not within the area of the applicant district.

12606. All hydroelectric power generated in connection with the development of water resources undertaken pursuant to this part shall be sold at a price determined by the board to be the then prevailing price paid by public utilities and public agencies operating electric transmission and distribution systems. The Public Utilities Commission shall give the board such aid in determining the facts referred to in this section as the board shall require.

12607. All water stored by projects undertaken pursuant to this part in excess of that reasonably required within the district which constructed the project for domestic, irrigation and industrial purposes, as determined by the board, shall be sold at cost in such manner and to such public agencies or persons as the board shall direct. In establishing the cost of water the board shall consider the revenues received from the sale of hydroelectric power from the project.

12608. A public district operating a project for the conservation of water under this part may enter into contracts for the sale of water or power at an agreed price for a term to be approved by the board. Subject to the foregoing, any public agency of this State shall have a perference in the purchase of such water or power over any other prospective purchaser, price and delivery conditions being equal."

Amendment No. 4

On page 1 of said bill, strike out lines 2 to 18, inclusive.

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Water Resources.

Amendment No. 2

In the title to said bill, strike out lines 2 to 4, inclusive.

Amendment No. 3

On page 1 of said bill, strike out line 1, and insert

"SECTION 1. Section 31022.5 is added to the Water Code, to read:

31022.5. The powers conferred by this part include the power to generate and sell hydroelectric power in connection with any water conservation project of the district.

SEC. 2. The Legislature hereby finds and determines that the enactment of Section 31022.5, as provided in this act, thereby making clear powers which are now implied, is desirable for the implementation of the State Water Plan in order that there may be no question as to the right of county water districts, as well as irrigation districts, to finance the construction and operation of projects necessary to conserve the waters of the State in the most efficient manner."

Amendment No. 4

On page 1 of said bill, strike out lines 2 to 26, inclusive; and on page 2, strike out lines 1 to 6, inclusive.

The board of any district which holds its district election in odd numbered years may by resolution provide that the election shall be advanced to the date of the next general election. However, in order for such a resolution to be effective for this purpose a certified copy shall be filed with the county clerk of every county in which the district lies at least 90 days prior to the former election date or the new election date, whichever is earlier.

Any such resolution shall continue in effect to change the date of all subsequent district elections, and may not thereafter be repealed.

Any district election held on the same day as the general election shall be consolidated with it, in accordance with the provisions of Chapter 4, Part 2, Division 11, of the Elections Code.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 19, "An act making an appropriation for flood protection works at the California Vocational Institution, Department of Corrections, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

It is necessary that flood protection work on this institution be commenced as early as possible in order that it may be completed before the next winter season.

I therefore recommend consideration of Senate Bill No. 19 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor
